# Routine Food Inspection

SUPER PETRO, INC.  
SUPER PETRO  
5909 W GOOD HOPE RD  
Milwaukee, WI 53223

August 10, 2007

The following list of violations of the Wisconsin Administrative Code as adopted by reference in the Milwaukee Code of Ordinances Chapter 68, and/or other City ordinance(s) must be corrected as soon as possible but not later than the date specified. A re-inspection fee may be assessed if the violation is not corrected by that date. An inspection fee may be charged for any repeat violations.

		Fee Amount:	\$0.00
Code Number	Description of Violation	Correct By	
12-201.11(C)	No food manager certificate on hand. Post the food manager certificate. This is required because processing of ice and coffee is still being done in the establishment.	08/10/2007	
5-205.11	The hand sink behind the front counter was turned off. Ensure that hot and cold water is available at the hand sink and supply every handsink with soap and paper towels. The front hand sink is required to be used because packaging of ice is being done on the premise.	08/10/2007	
6-301.11	No soap is available for use in the men's restroom and at the front counter hand sink. Ensure that soap is always available and that the pump is functioning. Monitor and refill/repair immediately when empty.	08/10/2007	
6-301.12	No single use hand towels are available at the handsink by the coffee machine or the handsink behind the front counter. Ensure that single use hand towels are always available at all hand wash locations. Monitor and refill immediately when empty.	08/10/2007	
3-701.11	Observed expired milk in the reach in coolers. Instruct employees to check expiration dates daily and remove all expired milk from customer reach. Provide a location for expired food products that are away from customers so that they can not accidentally purchase the expired products.	08/10/2007	
5-202.11	The ice machine in the back is not properly air gapped. Have a plumber repair the ice machine drain so that the end of the drain does not enter into the funnel drain. This is required to prevent contamination to the ice in the case of a sewage/waste backup.	08/10/2007	
3-602.11	Ice is being bagged and sold on the premise. All ice being bagged and sold needs to be labeled with store name, address, and phone number. Provide labels for all bagged ice that is bagged on the premise.	08/24/2007

## Consumer Environmental Health

Frank P. Zeidler Municipal Building, 841 North Broadway, Room 304, Milwaukee, WI 53202-3653 Phone: (414) 286-3674 Fax: (414) 286-5164  
web site: [www.milwaukee.gov/health](http://www.milwaukee.gov/health)

3-304.14 Observed wet rags at the hand sink near the coffee maker. All wiping rags/cloths need 08/24/2007  
to be stored in sanitizer buckets. The sanitizer bucket concentration needs to be tested  
frequently throughout the day and be between 50ppm and 100ppm. Provide test strips  
if not readily available.

### Inspection Notes

Notes: Clear the board from the hand sink in the back kitchen area. The four compartment sink in the back kitchen area must be available for ware washing. The sink will need to be setup for washing the ice scoop and other utensils/equipment in the store. Everytime a utensil or piece of equipment is washed, it must be washed with soap, rinsed in clear water, and then sanitized with the correct sanitizer concentration.

On 8/10/2007, I served these orders upon SUPER PETRO, INC. by leaving this report with

Inspector Signature (Inspector ID: 66)
